

OUR MISSION

Provide creative and dynamic ideas for interior design and outstanding project management services for commercial, hospitality and residential projects. Our unique blend of design and field experience provides our clients with the security that we can physically execute any design proposed.

OUR VISION

We believe that every project has a purpose to enhance our lives and the world. We believe that interior design creates livable spaces that are pleasing to inhabitants. We believe that everything around us can influence our senses. We believe that our profound passion for well-designed, well-managed interior spaces in conjunction with our commitment to providing superior service, will assist your project exceed all expectations within the planned time and budget.

MARCELA CAYCEDO founded Espacios Design Studio in 2009 after leaving Andres Escobar & Associates, an interior design firm based in Montreal. She was born and raised in Colombia where she studied architecture at the Universidad de San Buenaventura.

She moved to the United States to reunite with her family and attended the school of Interior Design at Berkeley College in New Jersey for the next four years. Her creativity and knowledge was rewarded with Dean's List and President's List distinctions, as well as an invitation to join the Phi Theta Kappa International Honor Society.

Her professional career started at several architectural firms that provided services ranging from retail and commercial to educational and hi-end residential projects. She was a senior project manager and office manager at Andres Escobar & Associates and oversaw the interior design process, consultant coordination and construction support of their commercial, residential and hospitality jobs for most of the New York and New Jersey projects.

Today, she is a certified interior designer by NCIDQ, an allied member of ASID, a VIP Member of NAPW and a board member of SCANY.
